

Introduction: LED display for rental

ERALED has a range of lightweight, indoor-outdoor LED video displays suitable for both rental and permanent installations.

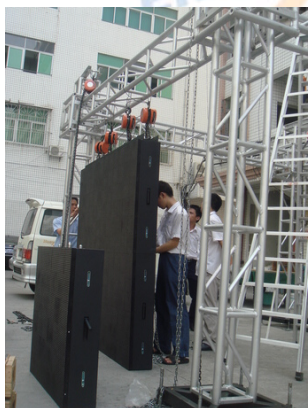

We provide equipment for outdoor festivals such as the P8 cast aluminum cabinet used for creating stunning displays at festivals.

Our LED screens are available for both indoor and outdoor use for quick on-site rigging. For creative LED solutions, try the curtain LED screen to a new level---this product is available for hire for an LED experience like no other.

Don't hesitate to contact us if you'd like to discuss your event requirements further.

Installation:

Special application: Stadium screen
