LED Mobile Truck /Trailer Display--

A cost-effective led display solution to really be any time, anywhere

Abstruct:

LED mobile display became popular and popular as it countless applications, concerts, parties, sports events, etc, So you can bring your message to any place you want , really a good choice to show your informations to different audience in different place .

Why choose it:

➢Fast moving to accumulate large audience, anytime, everywhere

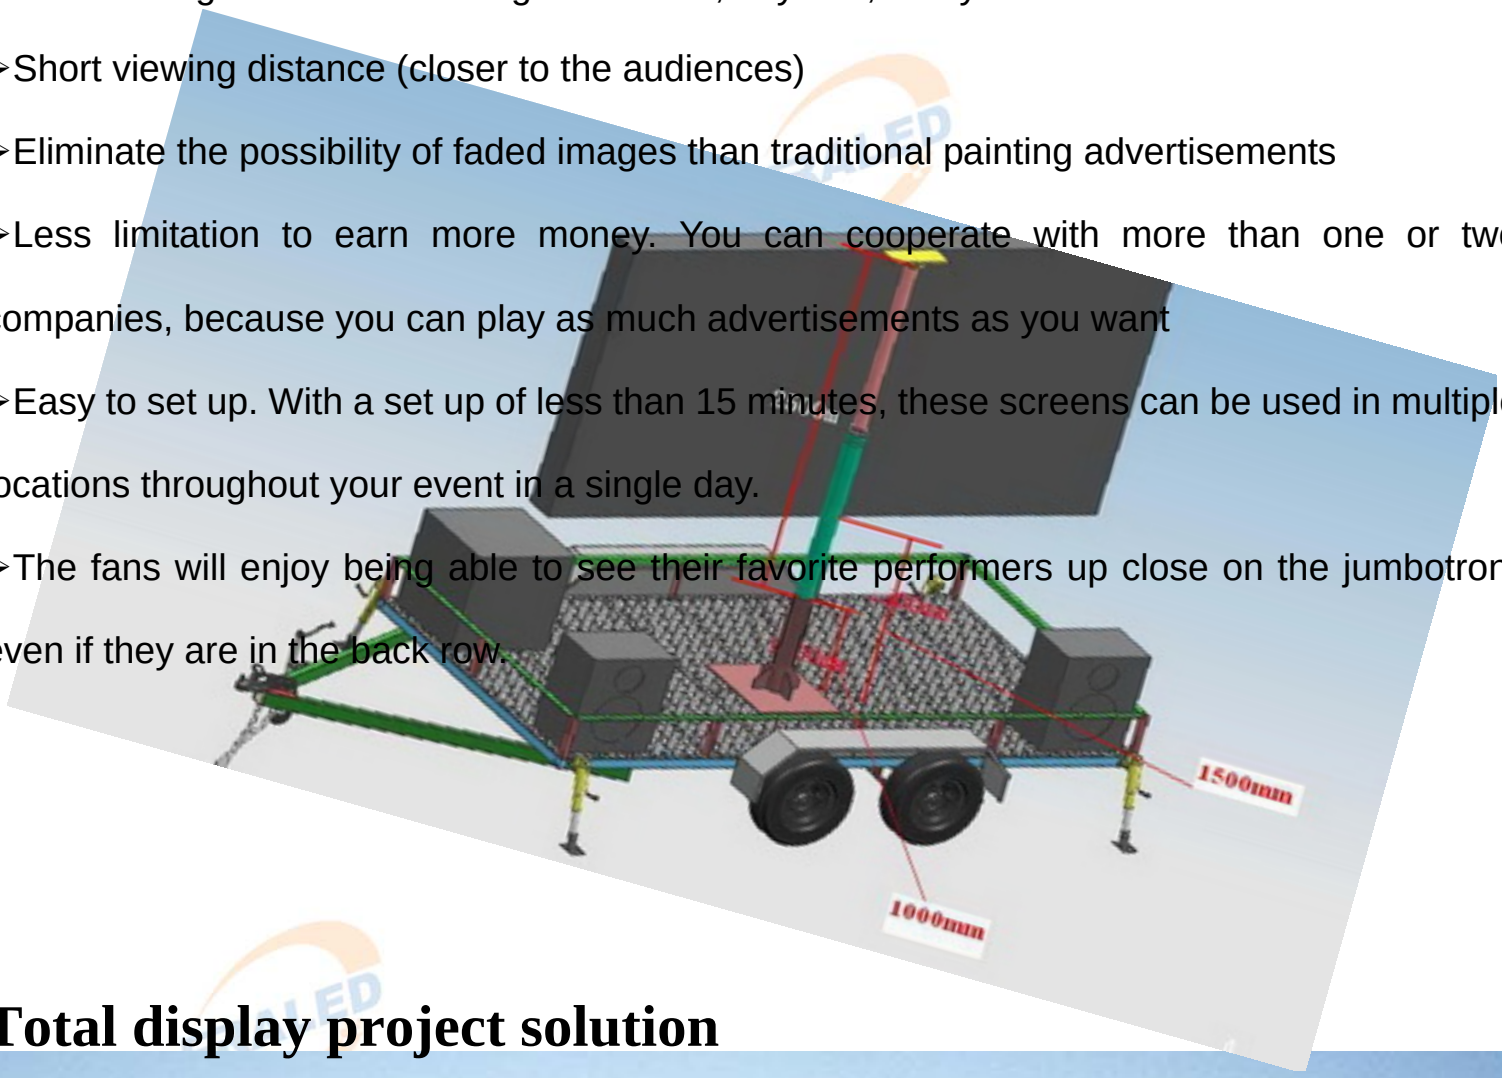
➢Short viewing distance (closer to the audiences)

➢Eliminate the possibility of faded images than traditional painting advertisements

➢Less limitation to earn more money. You can cooperate with more than one or two companies, because you can play as much advertisements as you want

➢Easy to set up. With a set up of less than 15 minutes, these screens can be used in multiple locations throughout your event in a single day.

➢The fans will enjoy being able to see their favorite performers up close on the jumbotron, even if they are in the back row.

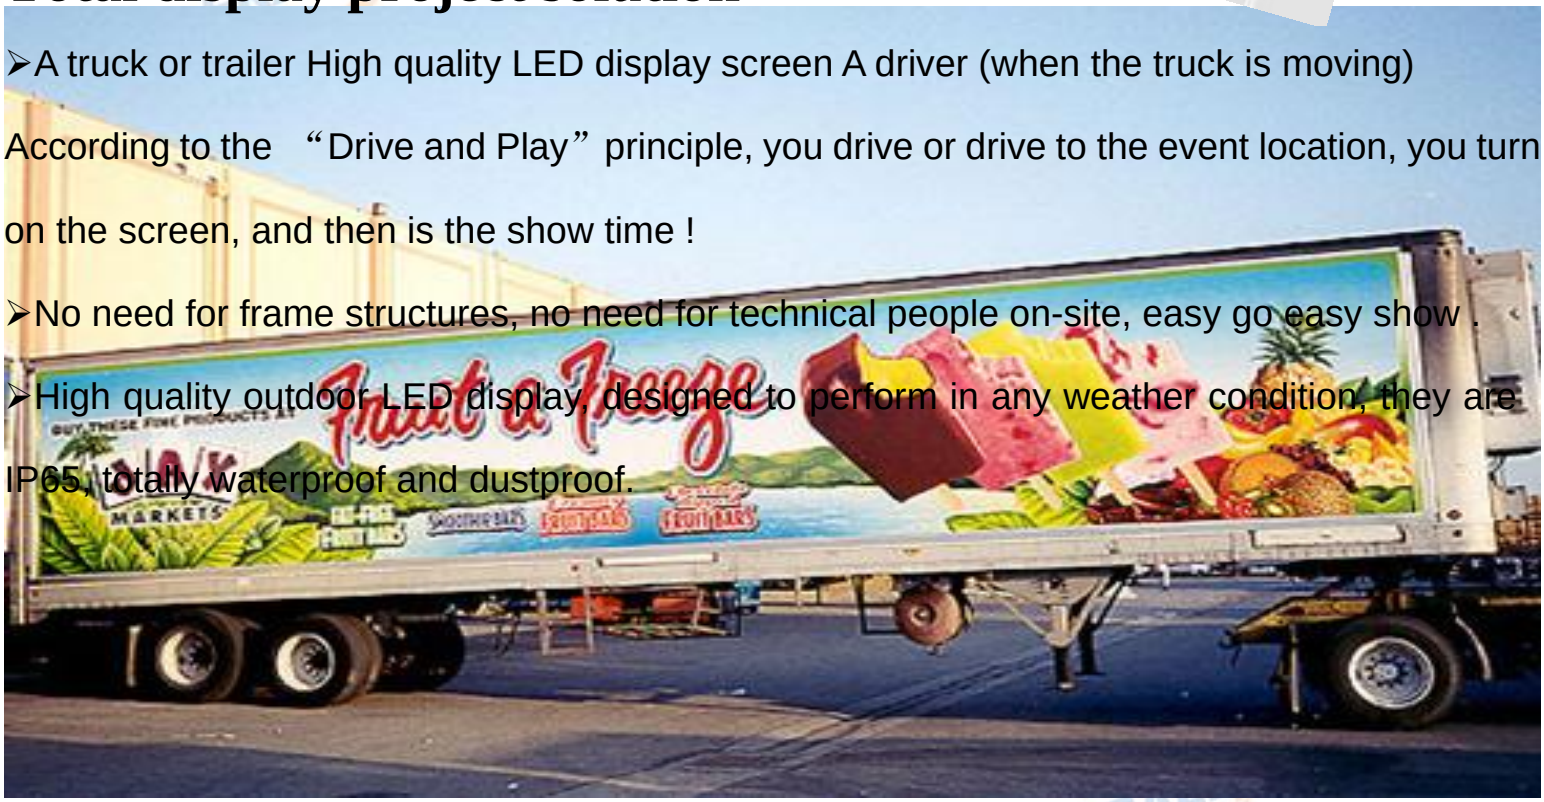


Total display project solution

➢A truck or trailer High quality LED display screen A driver (when the truck is moving) According to the “Drive and Play” principle, you drive or drive to the event location, you turn on the screen, and then is the show time !

➢No need for frame structures, no need for technical people on-site, easy go easy show .

➢High quality outdoor LED display, designed to perform in any weather condition, they are IP65, totally waterproof and dustproof.



➢The LED display is driving by the normal 110V~240V power supply , and if used on moving trucks, there is a generator must be carried together with the truck for the display;
