Email: manager@eraled.cn MSN: ERALEDdisplay@hotmail.com,Skype: ERALEDdisplay

Part Two: Reinforcing hanging strucuture

Project Photos of Movable (Rental) LED Display

Movable (Rental) use Cabinet structure Diagram	
Screen diagram	
	 **Hanging beam** 	**1.Hanging beam** It is a device connected to screen used for hanging the whole screen when it is for rental use Photo of hanging cabinet	**Structure of hanging cabinet**

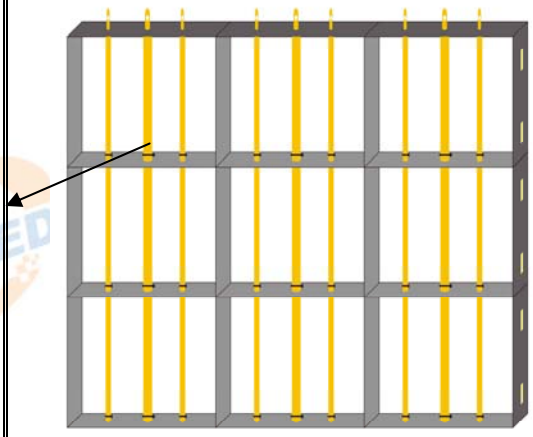
Address: ERALED Industry Park, Xincheng Road, Shajing town, Bao an District, Shenzhen, China
Email: manager@eraled.cn MSN: ERALEDdisplay@hotmail.com,Skype: ERALEDdisplay

2. Hanging cabinet inner structure

Hanging pole it is used for strengthening the cabinets structure in case the deformation caused by tensile force



Hanging cork base

Hanging beam

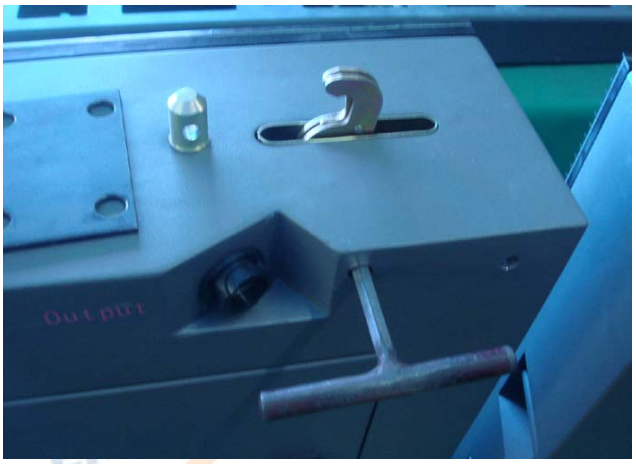
Hanging cork base

3. Hanging base

Which is used for shouldering the whole screen from the screen bottom in case the pressure deforms the cabinets

Address: ERALED Industry Park, Xincheng Road, Shajing town, Bao an District, Shenzhen, China
Email: manager@eraled.cn MSN: ERALEDdisplay@hotmail.com,Skype: ERALEDdisplay

Lock button (upside)	Tightening bolt
	

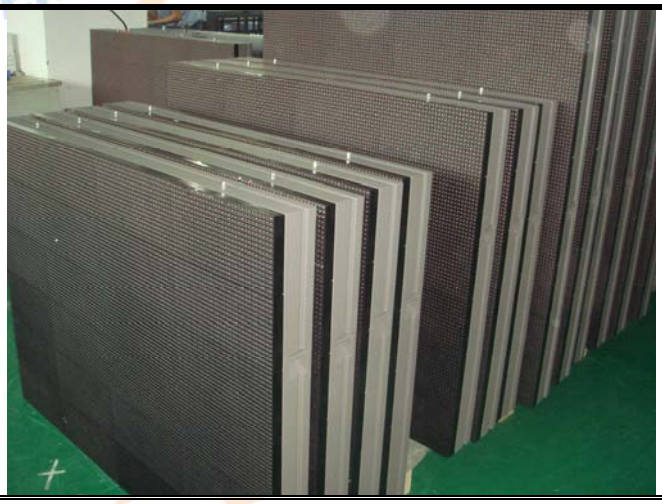


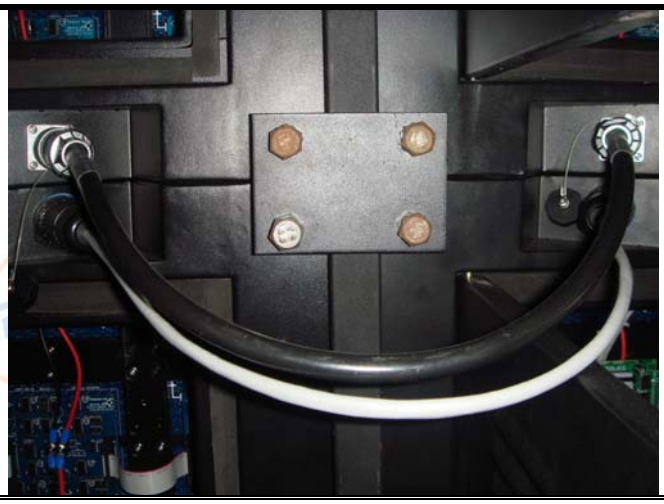
4. Lock button is mainly for rental use: it is helpful to assemble cabinet one by one rapidly and whole screen is more flat and tight than common fixed installation screen which without lock button.

lock	unlock

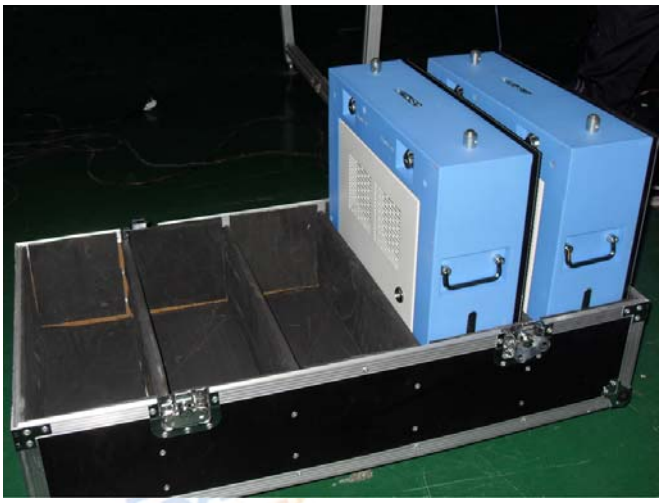
Compare and contrast (Fixed installation cabinets)
Without lock button & Assembling and fixing by iron plate

Address: ERALED Industry Park, Xincheng Road, Shajing town, Bao an District, Shenzhen, China
Email: manager@eraled.cn MSN: ERALEDdisplay@hotmail.com,Skype: ERALEDdisplay





5. Flight case: with waterproof, fireproof, anti-corrosion from acid-base, inside covered with specific material, which protect the LED screen from accident hit and moisture-proof



The hanging frame is belonging to peripheral equipment, we do not produce this iron frame, and suggest our customer order it in your country.
